

SEMINAR NANO TALKS

Prof. Dr. Pradip Paik

School of Biomedical
Engineering, Indian Institute of
Technology

TOPIC: NOVEL BLOCK-
COPOLYMERIC
NANOMEDICINES FOR
THERAPEUTIC APPLICATIONS

Date: 13. 05. 2025 at 11.00

Location: RTE Campus,
NBUAM Center, Conference
Hall

Prof. Dr. Pradip Paik, Bachelor in Science and Chemical Technology from University of Calcutta, followed by Master in Technology and Ph.D. from Indian Institute of Technology, Kanpur, India; is currently a Full professor of the School of Biomedical Engineering, Indian Institute of Technology (IIT), BHU, Varanasi, India. His research area focused on the Translational Nanomedicine and bio-materials, nanocapsules design and synthesis for drug and gene delivery, cancer therapy, Tissue engineering, Regenerative medicine, immunotherapy, new therapeutics for infectious diseases. Currently Dr. Paik is a life member of many scientific communities, editorial boards, etc.. Also he is known in India as one of the most innovative researchers, working for translational products from Lab to Hospital.

- Tea and bagels will be served at the seminar.
- Seminerde çay-simit ikramı olacaktır.
